Carbon Monoxide Safety Topic

Carbon Monoxide is an invisible, tasteless, and odorless gas that can be lethal to human beings. Due to its difficult detection, carbon monoxide is a serious concern in the workplace, more notable in the industrial and automobile industry. Most commonly seen as a by-product of motor vehicles/forklifts, OSHA has an exposure limit set at 50 parts per million (ppm).

Symptoms of Carbon Monoxide Poisoning

- Headache
- Nausea/vomiting
- Dizziness
- Fatigue and overall weakness
- Confusion/disorientation…
