

CDC Obesity Can Take You Off The Road

Infographics for long haul truck drivers and the effects of obesity on their health.

Long-Haul Truck Drivers: OBESITY CAN TAKE YOU OFF THE ROAD

7 IN 10
long-haul
truck drivers
are obese

2 TIMES more than U.S. adult workers

Obesity increases
the chance for these
health problems:

Type 2
diabetes

Sleep
apnea

Heart
disease

Cancer

Joint and
back pain

Stroke

These problems can
disqualify you from
receiving your commercial
driver's license (CDL).

No CDL may be hard
on your wallet and
your health.

What can you do to prevent obesity?

Eat healthy
and smaller
portion sizes.

Drink more water
instead of sugary
drinks like soda.

Be more
physically
active.

Track your
weight and
body mass.
