Cold Stress Special Report

Download our Special Cold Stress Report and learn about cold weather tips that supervisors need to be familiar with:

Learn to recognize some of the environmental and workplace conditions that may be dangerous. For example, it needn’t be bone-chillingly cold, with a howling wind, in order for workers to be at risk for developing hypothermia. It can happen in above-freezing temperatures.

Learn the signs and symptoms of cold-induced illnesses and injuries and what to do to help workers.

Train workers about cold-induced illnesses, injuries, and more.
