Common Areas and Shared Spaces – School Safety Picture This

The hallway in the image is littered with paper, debris, and loose decorations, creating multiple hazards. The scattered items on the floor pose slip, trip, and fall risks, especially in high-traffic areas where students and staff move quickly. Torn posters and decorations hanging loosely from lockers and ceilings may also distract students or contribute to fire hazards. This lack of cleanliness and order undermines safety protocols and emergency evacuation procedures.

School hallways and common areas must be kept clean, clear, and well-maintained at all times. Daily cleaning routines should include checking for and removing obstructions, especially from walkways and exits. All decorations should be securely attached and meet fire code standards. Schools should promote shared responsibility for cleanliness by involving students in tidy-up initiatives and ensuring custodial staff are properly supported to maintain safe, clutter-free

environments.
