Communicating Issues – Picture This

What’s wrong in this picture? There is a group of office workers who are not paying attention to the meeting, they seem frustrated, bored, and, in complete disagreement with what the leader is talking about.

Productivity, working relationships, and morale will struggle to work efficiently if you have communication problems in the workplace. And if the communication problems aren’t addressed, profit loss, higher turnover, mistakes, and a negative public image are commonplace. Recognize and address communication problems in the workplace before the situation gets out of control.
