# Fall Protection for Employees Bulletin

**Employees Should…**

- Understand your company’s written fall preven-tion plan.
- Attend &participate in fall prevention training.
- Use fall protection equipment if required for the job. Be sure that the equipment is right for the task, fits properly, & is in good condition.
- Inspect fall protection equipment (ex: harness systems) & devices before each use.
- Make sure that floor holes, open shafts, and riser penetrations are…
