Fire Extinguisher Basics – Spanish

Course Description

Fire extinguishers are one of the most reliable ways to put out fires in the workplace. Fire extinguishers are not a requirement, but if employers choose to provide them they must train workers in general fire extinguisher use to comply with standards. In this course, you will be able to Identify fire and extinguisher basics, Evaluate conditions to determine whether to evacuate or fight the fire and Demonstrate the techniques used to extinguish a fire. (Spanish Version)
