Fire Protection Checklist

Fire Protection Equipment & Training:

- Are all fire extinguishers properly mounted, locations labeled, and accessible?
- Are all fire extinguishers inspected and tagged noting monthly inspection and annual maintenance check?
- Are extinguishers of proper size and type for the hazards?
- If property is protected by automatic sprinklers, has the system been inspected in the past year and is it currently operable?
- Has the automatic fire protection system over the cooking area been inspected within…
