

Fire Safety – In Case of Fire Infographic

3B Training

Fire Safety Checklist For The Workplace

		
Does your building have clear and accessible escape routes?	Are fire extinguishers available?	Do you have fully working regularly tested fire alarms?
		
Do your employees know your fire precautions?	Do you have appointed internal Fire Wardens?	Are all of your staff considered in your evacuation plan?
		
Do you have a sectioned area for smokers on your premises?	Are your fire extinguishers serviced and replaced on a regular basis?	Are all of your electrical systems and appliances maintained and checked regularly?
