HOW TO: How to Navigate a Course

Key Takeaways:

– Identifying course user interface
– Understanding how to utilize course features

Course Description

Courses are likely the most common user experience within Bridge, and the aim of this lesson is to educate you on the features of courses. You will learn how to progress through the course, recognize the user interface, participate in the comment section, reply and upvote comments, and upload pictures. This simple lesson will teach you everything you need to know about enrolling in a course through Bridge.
