## Laboratory Safety Infographic

# Dress appropriately Tie back long hair, and wear suitable gloves, gaggles, and other personal protective equipment. Avoid touching your eyes, nose, and mouth.

### Know location of emergency numbers & safety equipment

Know the location of safety equipment and emergency phone numbers (such as poison control) so you can access them quickly if necessary.

Science labs offer great opportunities for learning, teaching, and research. They also pose hazards that require proper safety precautions.

No food Don't eat or drink in the lab, and never taste chemicals.

ID hazards Identify hazardous materials before beginning labs.

Be attentive while in the lab. Don't leave lit Bunsen burners. unattended or leave an experi-ment in progress.

### Be careful when handling hot glassware Turn off all heating appliances when not in use. Keep flamm objects away from your work space.

Don't obstruct work areas, floors, or exits. Keep coats, bags, and other personal items stored in designated areas away from the lab. Don't block sink drains with debris.

glassware carefully Properly dispose of anything that breaks. Report cuts, spills, and broken glass to your instructor immediately.

Clean up After completing the lab, carefully clean your work space and the equipment, and wash your hands with soap and warm water for at least 20 seconds.
