Loading Dock Checklist

Loading Dock

- Are all operators properly trained and certified on the equipment being used?
- Are all employees in the loading dock area utilizing proper PPE?(I.E. steel-toed boots, hearing and eye protection etc)
- Is the dock approach in good repair and well marked?
- Are chocks and dock bumpers in place?
- Is a time limit set for idling trucks to decrease the exposure to exhaust?
- Are safety barriers in place to mark ramps, drop-offs and…
