

# MMH – Handholds on Load and Gripping Aids – I – Fact Sheet

## DOES A GOOD GRIP MATTER?

Yes. Good handholds make lifting and carrying easier and safer.

- Use the “power grip” on loads with handles.

- Use the “hook grip” on loads with cut-out handholds.

- Curl your fingers around the edge.
- Do not hold the load with finger tips.

- Use containers with handles located more than halfway up the side of the container.

- Use the “ledge grip” to handle regularly shaped objects without handles.

- Hold the object with hands placed diagonally.

- Wear gloves where practical.
