## Multi-employer Worksites Infographic

# OSHA's Multiemployer Citation Policy

Curious about how OSHA decides which employer to cite for violations when there's more than one company involved?

This infographic will give you an overview of OSHA's Multiemployer Citation Policy and help you understand your safety responsibilities depending on your role in a project.

# 4 types of employers:

### CREATING

The employer that creates a hazardous condition

#### **EXPOSING**

The employer whose employees are exposed to a hazard

An employer can fall into MORE THAN ONE category.

For more detail on these definitions, check out BLR's article, "Safeguarding Contract Workers."

#### CORRECTING

The employer responsible for correcting a hazardous condition

#### CONTROLLING

The employer with general authority over the worksite

Each type of employer has certain SAFETY RESPONSIBILITIES.
