-Do's & Don'ts To Prevent-

PLUMBING EMERGENCIES

Do: Use drain covers to keep large items from clogging the pipes.

Don't: Pour cooking grease or oil down the drain or large food particles such as potato skins or corn stalks.

Do: Call your local plumber to get leaks taken care of ASAP.

Don't: Wait to take action if you have a leaking pipe. This will cause more damage.

Do: Preventative maintenance at least 2x a year.

Don't: Ignore any odd sounds, odors in your water, or low water pressure. These are signs something is wrong.
