Qualified Electricians Infographic

Not all electricians are the same. All electrical work should be done by a qualified electrician, who:

- Has 4-5 years of on the job training
- Is trained and up-to-date on your state's electrical code

- Is licensed, insured, and bonded in your state
- Purchases from reputable retailers and distributors
- Stands behind his work
- Can be reached by multiple methods
- Does safe work
- Leaves a paper train and pull required permits
- Provides the most energy efficient solutions
