

Statement of Commitment – Oil & Gas

LIFE SAVING RULES STATEMENT OF COMMITMENT

THIS CERTIFICATE IS IN RECOGNITION THAT: **Company Name**

commits to the adoption, implementation and use of Energy Safety Canada's Life Saving Rules in accordance with the guiding principles and terms and conditions detailed in the Industry Accepted Standard. Life Saving Rules are a means of protecting the health and safety of the individual by significantly reducing the risk of injury associated with "rule confusion" between different companies by focusing on critical hazards and work activities.

GUIDING PRINCIPLES:

STANDARDIZATION
companies agree to adopt and not alter the rule's logos or descriptions

SUPPORT
companies will support workers and supervisors in the adoption, use and on-going management of the rules

ACCOUNTABILITY
companies acknowledge that any breach of the rules is unacceptable and will investigate infractions and take appropriate action when rules are violated

CONTINUOUS IMPROVEMENT
companies will monitor, report and evaluate their programs for improvement in safety performance

SHARED LEARNING
companies will report, share lessons learned and best practices through Energy Safety Canada

Name

September 25, 2018

Company Position

SETTING THE STANDARD IN OIL AND GAS SAFETY
