

Truck Tarping Infographic

10

Ultimate Safety Tips for Truck Drivers

Never climb on top of loads to secure tarps

Avoid using your Cell Phone while Driving

Replace any cargo control pieces that show wear or damage

Wear gloves, safety glasses and other protective clothing while securing a load

Stand clear of trailers during the loading and unloading

Stay within the speed limit especially ones specifically noted for semi-trucks

In windy conditions always ask for help to apply or remove a tarp

Be careful when making turns on a curvy road or at an off-ramp

Educate yourself before using a new cargo equipment

Always remove sunglasses when entering tunnels
