TXWCC Material Safety Data Sheet

Handout on MSDS safety including employer responsibilities and a safety quiz.

Introduction

The Material Safety Data Sheet (MSDS) is the primary means of providing information concerning chemical hazards to employers and employees. The manufacturer/supplier of a hazardous chemical is required to prepare an MSDS. The employer must obtain and maintain an MSDS for each hazardous chemical or mixture in his or her workplace.

The Occupational Safety and Health Administration (OSHA) developed the Hazard Communication Standard 29 CFR 1910.1200 to ensure that the hazards of all chemicals are evaluated and that information is transmitted to employers and employees.

Goal

This training program assists employees in reading and…
