

# Winter Weather Driving Picture This

## SLIP AND SLIDE: TEST ROAD CONDITIONS FREQUENTLY

Periodically, check traction (available grip) when driving in challenging conditions. Road conditions can change drastically in a short period of time/distance in winter. Apply the brakes with moderate pressure to determine the available grip and modify your driving, if needed, to respond to ever-changing road conditions.

## GRIP IT GOOD!

It's best to avoid braking or acceleration when negotiating a turn.

- ① Brake before the turn
- ② Negotiate the turn
- ③ Accelerate after the turn

## YOU CRUISE, YOU LOSE

Avoid cruise control in wet, icy or snow conditions to maintain control of acceleration and deceleration at all times.
