

Power Tools

Never carry a tool by the cord or hose.

Never yank the cord /hose to disconnect from the receptacle.

Keep cords & hoses **away** from heat, oil, & sharp edges.

Disconnect Tools When: not in use
before servicing
when changing accessories

Secure work with clamps/vise,
freeing both hands to operate the tool.

Avoid Accidental Starting. **Do not** hold a finger on the
switch while carrying a plugged-in tool.

Tools should be **maintained** with care & kept sharp/clean for
the best performance.

Be sure to keep good footing and maintain good balance.

The proper apparel should be worn no loose clothing

If damaged– remove & mark **“Do Not Use”**
