

21320 Preparing for Emergencies in the Workplace

1. If a workplace emergency occurs, everyone will know automatically what to do even if they have not received training.

True or False

2. A good emergency preparedness plan includes all natural and manmade disasters that could occur.

True or False

3. Explain how to activate the internal alarm system in your work area.

4. Are you required to shut down any equipment if you leave your work station in an emergency?

Yes or No

5. Where should you and your co-workers gather after you have left the building in an emergency?

What Would You Do?

You spot a fire in the waste basket outside your work area and rush to get the fire extinguisher. By the time you get to the fire, it's spread beyond the basket and is moving up the wall. What would you do?
